Title
Configure dpre2sgi RAID array

Documents Affected	**Source Nos** (RID, NCR, Action Item, GSFC CCR, etc.) **or Tech Reference**
EDF Configuration Management	

RTM Change ☐   **Start New Baseline** ☐

Problem
The RAID array attached to dpre2sgi has not been configured. Also, Data Server has an immediate need to test XFS partitions on the FSMS host to demonstrate/verify that SGI COTS and ECS custom code can use files larger than 2GB.

Proposed Solution
Request that the RAID array be configured as defined in the attached spreadsheet. MRS volunteers to do the work if desirable.
